## Traditional Turkish Breakfast & Turkish Motives

(Half Day)

After sometime on the sea here is the chance of a real Turkish Breakfast for you at Toprakana. It is just 25 minutes away from Gocek and famous with organic and natural dishes and the material used to build the place is also from the nature.

This eco-friendly place offers you homemade most fresh and delicious breakfast, eggs, tomatoes, cucumbers, four types of cheese, orange, strawberry, cherry and fig jams, olives, butter and home bakes fresh bread straight from the oven to your table.

All kind of freshly squeezed fruit juices are coming from the trees around the places. Also there are lots of animals and pets in their garden, rabbits, birds, donkeys and many more.

After that breakfast we drive between cotton and tobacco fields and arrive where couple of generations meet together. Grandmas turning wool or cotton in to strings with strong fingers and young ladies earning some money by knotting thousands and building these hand-made art works.

Here is a local gallery for handmade craftsmanship, we see there how cotton, wool or silk become to a string and how they get dye and become the most beautiful piece of art.

Tours starts from Top Yacht Gocek Base, tours escorted by official tour guide includes; transfers with a/c vehicles, entrance fees, breakfast excl. drinks.
